Religious Intelligence.

The Addison County Consociation at their meeting last week, resolved that the practice of pastors leaving their own congregations to preach as candidates to other churches, without previously consulting their own, is of evil tendency, and morally wrong, and that the practice of churches and congregations, or any member of either, while they have a pastor, of inviting, or procuring other ministers to preach to them as candidates, without previously comulting their pastor, is also of evil tendency, and morally wrong.

The Annual General Conference of the Congregational churches in the State of Maine met this year at Bangor, on Tuesday, June 27th. The conference resolved, among other things, that as Christian citizens they were called upon to resist the policy of the Nebrasks bill, "as bringing into jeopardy the continuance of our Union, as making us the scorn of the other nations of the earth, as exposing us to the just judgment of Almighty God, and finally, as creating formidable obstructions to the progress of Christ's kingdom on earth : sud reaffirmed most emphatically their confidence in the Maine Liquor-Law, that it is good and doing good !

At the monthly meeting at the Tract House in New York, on the 3d inst., Mr. Wood, the Secretary of the American Board, stated that there is imminent danger of a deficit in its receipts for the year ending July 31st, of not less than \$15,000 During the last year 54 laborers, male and female, were sent forth. This year, thus far, 25 in all have gone. Eight missionaries are under appointment to the Armenian missions, of whom at least five with their wives, expect to sail during the present month. The number of candidates for service in the foreign field is happily augment-

The churches connected with the three Presbyteries of New York and Brooklyn, have raised, within about a year past, for the purposes of church extention, of building new edifices, repairing and enlarging old ones, removing incumbrances, and otherwise, a sum of money exceeding a quarter of a million of

The Corner-stone of a French Roman Cath olic Church was laid at Plattsburgh, N. Y., on the 5th inst. The church, when completed, will be one of the largest and most substantial structures of the kind in the Northern part of the United States.

It is curious that there are about five hun dred verses in Matthew's Gospel that are also in Mark's, more than three hundred verses in Luke that are also in Mark, and about one hundred and twenty that are also in Matthew. Nearly one half of the Gospel by Matthew is to be found in Mark, and more than one third of the Gospel by Luke is to be found in Mark or Matthew

There is a Protestant Cent Society in Paris. Its members agree to give a cent a week, and to ask subscriptions of others. The inten-tion is to give to even the poorest person an opportunity to contribute something, and the proceeds are divided among the Protestant religious Societies, according to the sums each raised for itself.

Col. WILLIAM RAYEN, of Youngstown, Ohio, has bequeathed the munificent sum of \$100,000 to educate the children of that town.— His good deeds will live after him. In Greenland, the missionaries labored 16 years, in Ombette twenty years, in Bengai 17 years, in Burmah 5 years, before any conversions were seen to take place.

PRAYER FOR THE CONVERSION OF ENGLAND.—

A prayer read in the churches of Hungary for the conversion of England, contains the fol-lowing invocations. 'Holy Maria, mother of God, pray for England'. Holy George, patron saint of England, pray for that country Holy Pope Gregory, father of England, pray for that country! Holy Augustin, apostle of England, pray for that country! Holy Beni-facius. O thou apostle of the Germans, who camest from England, pray for that country!

The Knock Down Game.

re have been several Illustrations of the Knock Down Game practised upon persons who were felt hats of a light color. We did not expect this species of lawlessness would find favor in respectable quarters, not even with the editors of Cathelic journals, but

with the entrors of Cathene Burrans, but we are unstaken, as will appear from the following, taken from the Boston Pilot, a leading Romain organ in the country.

"This is proof of the langedocio bravery of Americans: they have no manliness, no honor, no love of fair play; it is of no use reasoning with them, there are but two courses left, the most plausitle of which is, and we believe that it is the determination of and we believe that it is the determination of many of our Irish brethren, to knock them down, or otherwise chastise them corporeally, for should our frishmen appeal to the law for redress, the odds are against them; for reli-gious prejudices run so likely in Court, that with a Protestant Judge, and a Protestant jury, the poor Irishman would be deprived of all means of redress."

Now we are not going to assume this is the universal sentiment of the believers of the universal sentiment of the believers of the Romish faith, but that it is the sentiment held to, and the dectrine thught by some of the leaders in the Church, there is no mistake. Here we have a leading newspaper, officially endorsed by the Bishop, advocating personal violence and mob law. When we consider how ready "our Irish brethren" are to act upon such counsel, it becomes a matter of actions are the counsel. ter of acrious consequence, lest the reign of anarchy be too speedily ushered in. It is a good deal to say that an American has "no mandiness, no honor, no love of fair play."
When all Ireland was famine stricken, who sent her bread! Who give the Irish homes here better than they can get in their own country! The Pilot does our Irish brethren.

positive injury, by counseling them thus. The Irish have followed such leaders quite too long. They have suffered their redigious and national projudies to be wrought up, and they have become clanish, in violation of the true spirit and intent of the system of covernment under which they have found. a shelter, and they have thus provoked a counter spirit, now becoming quite necessary counter spirit, now becoming quite necessary to rebuke the kneck-down arrogance and to overthrow the anti-American schemes of such men as find an organ in the Prior. To chaffs under it is to which against the prick" malessly. It will not avail. That there is an homest scattiment extensively prevalent and daily growing throughout the country, that the teachings and purposes of the Romash badier, it is from the monarchies of Europe, and acknowledging one only back, spiritual and temporal, in a foreign Prince, and he the Pope of Rome, require cheeks and balances, indued with the true Americanism which enumated the fathers of American freedom, is very plainly eximed by passing creats. That these cheeks may be carried to far, is possible, but it will be time enough to say so when that happens,—Troy Whog.

OCTOR Glio M. HGHE, A STUDENT under Sir Adder Cooper, late of the City of Lindon, England, has taken up his abode in Burlington, Vermont, and is now prepared to practice upon Cancers, Tamors and Ulcers; Serotus, Soit Chemi, Venercal Diseases, whether acute credition, and all Cutaneous Diseases of the skin. He pledges himself not to take any person under treatment whom he cannot myre, and makes ne charge where there is no care effected. Persons bringing certification from the Mini ter of their Religion, of their liability to pure, he will care without charge, and

AYER'S PILLS.

A NEW and singularly successful remedy for the cure of all fathous diseases — Costiveness, Indicestion, Januilice, Bropey, Rheumatism, Fevers, fout, Humars, Nervoness, Irritality, Indiannations, Haadache, Fains in the Breast, Side, Back, and Limbs, Female Complaints, Ne., Ne., Indeed, very few are the diseases in which a l'orgative Medicine is not more or less required, and much sickness and suffering might be provided, if a harmless but effectual Cathartic were more freely used. Na person can feel well while a ensitive hobit of leady prevails; bouldes it soon generates serious and often that diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bidney derangements. They all tend to become or This is allike true of Colda, Feverish symptoms, and Bibons derangements. They all tend to become or precise the deep scated and formidable distempers which load the heavies all over the land. Hence a reliable family physic is of the first importance to the proble health and this Fill has been perfected with consumnate skill to meet that demand. An exicultive trial of its virtues by Physicians, Professors, and Pattents, has shown results surpassing any thing hitherto known of say medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to feebid the suspicion of untruth. Among the eminent gentlemen to whom we are allowed to refer for these facts, are FROM, VALEMINE MOST, the distinguished Surgeon of New York City.

DUCT, A. A. HAVES, Practical Chemist of the Port of Beston, and Geologist for the State of Masanchuetts.

IRAL MOGRIE, M. D., an eminent Surgeon and

pen of New York City.

Doct. A. A. Haves, Practical Chemist of the Port of Bieston, and Geologist for the State of Massachu, etts.

Ins. L. Moone, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. G. Southwick, Esq., one of the first merchants in New York City.

C. A. Davis, M. D. Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these caninent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are ordered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimentious and injurious qualities, by this cach individual virtue only that is desired for the curative effect is present. All the incrt and ohnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful annion to to discase than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the composition, have supplied the accurate Formulæ by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and Biritish American Provinces.

Somebody out West sends as note objecting to our pading "Reidang's Humbing Russes Nates".

The grantionan could not be acquainted with the article. We could hardly keep home without it this way; it is one of the best things for burns, briders, wounds, and many other feels die near, or injuries for any kind, that we know of. We saw a young man's hand badly bitten and mangled by a degree of such and badly bitten and mangled by a degree of such and the pain and inflamation had also init the wounded hand and wrist, and was soon healed. For burns it has no superior.

It is not the intention of the editor to admit advertisements or pulls of any article which is not of public or private utility; and Reidang's Russes Nates is almost beyond value to those who have no remedy or physician at hand, septemally when merities we write without pay, or the knewledge of the proprietor.

The Artists' Union Of Cincinnati has entered upon the fourth year of its useful and honorable efforts in be-half of Westren Arrists and Art, under auspices which, if fully seconded by the pub-lic, cannot fail to produce gratifying good he, cannot fail to produce gratifying good effects, and render permanent service to the cause of a deserving class.

The legitimate objects of Art Unions, we deem to be, the fostering and encouragement by pecuniary aid and sympathy of young and rising artists.

Co-ordinate with this young class of artists there is a class of citizens who, with latent love for the fine arts, have no opportunity to cherish and expand it by the contemplation of paintings,—nor that superabundance of means that is required to procure works of the most renowned masters, but who, nevertheless, would cheerfully do what they can to encourage art. A person may be an amateur, and must be, before he can be a connoise your and his delights or each by a confident control of the can be a composite that the can be a composited that the can be a control of the can be a control. seur, and his delights are equally gratifying to his taste, as the tastes of the more finished critic to him. The Artists' Union has kept these facts steadily in view, and

acted upon them.
It claims, in this respect, superiority to its It claims, in this respect, superiority to its contemporaries; it is in all its characteristics eminently democratic. Usefulness, not magnificent show, has been the end kept in view by the Managers, and, therefore, the malign influences that have operated against most other institutions of a like general character, do not apply to the Artists Union.

To give a more particular idea of what has been done to encourage Art and Artists, we subjoin below a list of the Paintings and other Works distributed last year by the Artists.

Works distributed last year by the Artists Union, together with their cost, viz: Chich, together with their cost, viz:

1 painting valued at \$600: 1 do, at \$300;
3 do, at \$100 each; 3 do, at \$30 each; 2 do, at 75 each; 2 do, at \$60 each; 4 do, at \$50 each; 4 do, at \$50 each; 5 do, at \$45 each; 31 do, at \$40 each; 6 do, at \$35 each; 28 do, at \$30 each; 12 do, at \$20 each; 11 do, at \$20 each; 12 do, at \$10 each; 11 do, at \$15 each; 12 do, at \$15 each; 10 do, at \$10 each; 11 do, at \$15 each; 10 do, at \$10 each; 10 each; 10 do, at \$10 each; 10 each

88 each—in all, amounting to some \$5,800.
These works of art were distributed among 2,332 subscribers, in addition to 4,464 engravings, every subscriber receiving two of the engravings issued by the "Union." The works of art distributed were of a high order merit.
The "Aurists' Union or Cincinnati "established

The "ARTISIS' UNION OF CINCINNATI," established for the promotion of the tastes for the Fine Arts, and the encouragement of the great body of artists residing in the Western States. To accomplish an object, uniting great public good with private gratification, at a mere reminal expense, in a manner best soited to the wants, habits and tastes of the people, the Managers have adopted the following plan, which they think will meet the approbation of all those who take an interest in the progress of the Fine Arts. The annual subscription of membership is five dol-

The amount collected (after defraying necessary expenses) is appropriated as follows : To the production of two magnificent engravings, in the highest style of art, of which every member receives one copy, for every five dollars paid, which will be delivered in the order of subscription.

To the purchase of American works of art, which will be publicly distributed by lot among all the members, at least once a year. The Paintings to

members, at least once a year. The Paintings to be distributed will be richly framed at the expensof the Institution,
Members who subscribe for more than one Memoers who subscribe for more than one share in the distribution, are for every five dollars subscribed, presented with an additional engraving, worth nearly that amount. Each member will also be entitled from the date of his subscription, to the numbers of the "Western Artists' Journal." a mouthly publication devotes to literature and the Fine Arts.

A full equivalent is guaranteed to subscribers for their money, and a chance to win a fine Painting besides, while at the same time, they have the sat-isfaction of knowing they are encouraging a noble

enterprise.

Members for 1853 will receive two beautiful engraving, viz "Education of Morals," a beautiful steel engraving, and the "Burial of De Soto," (after Powell's celebrated work,) or can choose any other two of the engravings issued by the "Artists" Union," as follows: "In a Quandary," (from a painting by Bingham) and "Education of Nature." or "Washington," from Stuart's celebrated potrait, or "Washington," from Stuart's celebrated portrait, and "Catching Rabbits," by Mount.

N. B. Subscribers are not required to wait till the end of the year, or longer, before re-ceiving their engravings. The engravings are Now selby, and will be forwarded, free of ex-pense, to new subscribers, as soon as their subscriptions can be transmitted to Cinciunati and a return received, while in addition to the engravings, each subscriber may receive at the end of the year a painting richly framed.

Letter addressed to care of Mr. Curtis Hotch. Agent at Ravenna, Ohio. To Dr. Manchis: —I have been ien years troubled with Female Complaints—prolapsus uteri, all the attending difficulties; at times rendering my life most miserable. I have had the attendance of some most miserable. I have had the attendance of not of the best physicians, with but little queess; t most they could do was to relieve—a cure was out the queetlon. For five months before commence with your medicine, I had not been able to perfor any labor, could walk but a few steps at a time, a

scarcely went out of doors—in short, I was o pletely prostrated, both in body and mind, and pected to drag out the rest of my days in suffer and misery. But reading your advertisemen was induced to try your invaluable medicine on term of activine Catholicon, as the last resort. I had used it a week before I felt like another woman By the use of three habits. By the use of three bottles I was enabled to perform all the labor for six in the family with ease, and could walk anywhere in the neighborhood without injury. Nothing but a sense of my duty to you and to the afflicted, has induced me to state my case to the public. I can safely recommend the preparation to all those suffering like invest. the public. I can safely recomme to all those suffering like myself. , which entitles a member to all its privileges.

(Signed.) Mrs. Sanan A. Bisuor. Francios, Portage Co., Ohio, Dec. 27, 1852. T.J. B. MARCHISI & CO., Preprieters, Jan. 1, 1864.
